LAY-OFF ONLY TEMPORARY.

About seventy members of the public park force have been furloughed by Col. W. W. Harts, engineer officer in charge of public buildings and grounds, because of a abortage in funds for the care of public buildings and grounds. It is probable that the zeventy men will be restored to their positions on July 1, Col. Harts said yesterday. The lay-off is a yearly occurrence.

the "depression" which has struck more than 200 employes of the pension office, where, it was announced yesterday, sixty men and women will lose their jobs on June 30, while 180 others will have to sustain a saiary cut of from 200 to 1000 a year.

In the case of many of the victims of the rovernmental policy of gradually reducing the pension office force these are hard times indeed, although Commissioner Balizgaber and his aides have done everything in their power to distribute the burden on those shoulders which can best bear it. There is no prospect of an improvement in conditions so far as the pension office is concerned. Many who escaped the ax this time are merely being held over for a year, at the expiration of which, in all probability, there will be another and even more effective cut.

The hospital which will welcome the friends of the institution when they come aboard.

All admissions received from visitors to the hip Friday will be turned over to the hospital and George W. White, president of the Natibnal Metropolitan Bank, will serve as purser.

Dr. Harry Lewis, superintendent of the hospital, has been designated as "ship's surgeon" for the day, but it is hoped his services will not be needed. Nathan C. Wyeth, architect for the new hospital, will be the "ship's carpenter." It is not likely he will be called upon to do any work, however, for the hull of the Subcess is of teak wood and is said to be almost as stanch as it was the day the craft was launched, 12 years ago. Directors of the Emergency Hospital the Success.

Directors are the creative of the match as it was the day the craft was launched, 12 years ago. Directors of the Emergency Hospital the Success.

The reduction in the Pension Office force is largely the result of the recent liberal legislation by which practically all claims have been settled, explained T. F. Dennis, the Commissioner's law clerk, who gave out a statement for Mr. Saltzgaber last right. The settlement of all ficialms, said Mr. Dennis, has left little to be done outside of attending to disbursements. This, coupled with the fact that the number of beneficiaries on the rolls is diminished by death to the extent of 35,000 or more annually, makes less and less work for the office every year. Seven years ago, said Mr. Dennis, the Ponsion

less work for the office every year. Seven years ago, said Mr. Dennis, the Pennion Office had 1,700 employes exclusive of the disbursing force; now it has 1,100.

The employes who will lose their jobs by the present cut got notice yesterday afternoon in the form of a letter, which also informed them that they might quit at once in order to get the benefit of the appuals here allowed them.

at once in order to get the benefit of the annual leave allowed them. Notice has not yet been given to those whose salaries are to be cut. Commissioner Saltsgaber is not yet ready to give out a list of the victims in either case.

The cut is necessitated by the government appropriation bill pending in the House, said Mr. Dennis, which calls for 145 vacancies in tife grads from 2000 to \$2.000, employes above that grade being deemed too valuable to the department to be dropped. But Commissioner Saltsgaber thinks that employes who have worked themselves up beyond the \$1,000 grade are also too valuable to be dropped, so instead of cutting off ten in the \$2.000 grade, ten in the \$1,800 grade and so on, he has reduced the salaries of men and women in those grades to bring the total amount down to meet the appropriation.

Period Furniture

Modern furniture must still bow to reproductions of past styles as revived by the foremost manufacturers of this country. There is beauty and grace in every piece of period furniture, and we have at this time some especially fine examples of Louis XVI, Early Colonial, Adam, and Sheraton bedroom suites, which we are offering at the most attractive prices. For instance, we are showing a Louis XVI Mahogany suite of three pieces, bed, dresser, and chiffonier, at \$95; and an Adam Circasian Walnut dresser and chiffonier at \$135.
